BIO

We were born in 2020. Our style is a meeting point between the power of **funk**, the sophistication of **jazz**, and the simplicity of **pop**. We are a trio, a drummer, a keyboard player, and a bass/vocals player.

We are professional musicians with diverse backgrounds, from blues to gospel, rock to jazz, world music to singer-songwriters. All these worlds blend together in a style rich in influences.

HYPERCOVER

We reinterpret great classics with a contemporary twist, incorporating jazz improvisations and scat solos. We create compositions that are a mix of covers and original songs, which we call Hypercovers. We've rearranged songs by Prince, Eric Clapton, The Doors, Prince, Red Hot Chili Peppers, Ariana Grande, and Fabrizio De Andrè.

ORIGINAL SONGS

Our original songs are a blend of groove and refined pop with introspective, personal, or choral lyrics. We write in **English** and **Italian**. We released our first album, "Free Hands," in 2025, featuring songs with prominent collaborators such as Alberto Marsico (Hammond) and the gospel choir Castagnole Community Choir.

LIVE

Our sound draws on the soul and funk tradition, but is projected into a contemporary dimension thanks to improvisation, freedom of performance, and a large dose of interplay. We have traveled several times to France and Switzerland, organizing small tours, playing on all types of stages, from the smallest to the largest festivals.
